Selling dependable clothing since 1919. LEINWEBER'S.

A free dust cloth with every tire and tube at C. R. Gaines.

Consult us about your printing needs before going elsewhere.

See the bargains at Windrow's School supply and 1-cent Sale.

Mr. and Mrs. C. R. Gaines were visitors in San Antonio Tuesday.

Charles Neitenhoefer was a business caller at this office Saturday.

Mrs. A. Broeder of Houston is a late addition to our corps of readers.

For Sale—Patridge Wyandotte roosters at my place. F. F. Muenink. 21-pd.

We can save you money on anything in the Furniture line. Ask us. LEINWEBER'S.

See our new Fall Prints and other Dress materials from 10 cents per yard, up. LEINWEBER'S.

Miss Nanna Smith went to Austin Wednesday from where she will go Raymondville for the winter.

Men, buy your furnishings from our complete stocks. Everything for the Man. LEINWEBER'S.

Ben Langfeld paid this office a business call Wednesday and moved up his date to the old home paper.

Miss Lillian Brucks returned one day this week from a two weeks' trip to Colorado and other points of interest.

Mrs. W. N. Saathoff and daughters, Irene and Esther, and son, Master W. N., Jr., visited relatives at Poteet during the week-end.

Miss Maxine Jones has returned to Hondo after a two weeks' stay in San Antonio as guest of Mrs. A. W. Swinden and family.

Judge H. E. Haass left Thursday afternoon for Del Rio where he will attend a Convention of County and District Attorneys.

Jones Brothers are announcing a Removal Sale beginning tomorrow. The sale is being directed by a sales specialist from San Antonio.

I am agent for Steel Star Windmills and build steel tanks to order. Get my prices before buying. Mrs. E. A. Balzen, Dunlay, Texas. 4t.

Mr. and Mrs. Bishop Kollman returned to their home at Richmond after visiting Mr. Kollman's parents, Mr. and Mrs. L. E. Kollman, Sr.

Mrs. Melvill Lippold, Mrs. Etta Langford, Miss Lucille Van Fleet and Mr. Wilburn Van Fleet were visitors in San Antonio several days this week.

Rev. and Mrs. O. R. Schawbe and baby of Iowa City, Iowa, and Miss Clara Wiede of Maxwell, Texas, are visiting Mr. and Mrs. F. R. Gru this week.

For Sale, a 3 H. P. McCormick Deering Gas Engine, slightly used, and practically good as new, at a reasonable price. Wm. A. Lutz, D'Hanis, Texas.

Born, Friday, August 28, 1931, to Mr. and Mrs. Arthur Grell, twin boys. The young men weighed 8 and 7 pounds respectively. Mother and babies are doing well.

L. W. Graff was a business caller at this office Friday. Mr. Graff says every thing is fine on the ranch, fat stock and plenty of feed crops, but the market is discouraging.

Mr. and Mrs. G. H. Mansfield and children, Joe Delbert and Joyce Glynn, have returned to their home in Yuma, Arizona, after visiting in the home of L. C. Jones and family.

Mr. Wilburn Van Fleet spent Wednesday in Austin where he was on business with the Athletic Council of Texas University. He was publicity manager for the Council the past year.

IS YOUR INSURANCE MAN, ONE WHO LIVES AMONG YOU? OR ONE JUST PASSING THRU? For Every Form of Insurance See O. H. MILLER, Hondo, Texas, Since 1907.

BAPTIST NEWS NOTES.

September is here, the time for Fall activities, for School life and for a full program in the work of the Lord. We are hoping for a much increased attendance upon our Bible school next Sunday morning. Every member of the church is both eligible and are considered members of the Bible school, as really they should be. Besides, we hope for the presence of our faithful teachers who served so faithfully last term of school. Mr. M. L. McDowell, our Superintendent, Mr. Fluker, Miss Ellen Tweedy, Miss Margaret Howard, we trust may all be present. And, what a welcome we hope to give them. Let all of our membership be on hand, with joy and prayer in our hearts. Our lesson for the day, will contain the first sermon recorded by Paul, the inimitable friend of God and winner of lost souls to God. All of Mr. Fluker's class of boys are urged to be present to meet him. Also Mrs. Dillon's boys. The adult classes, too, are urged to be full in their attendance. Usually, we can count on the little ones. The Pastor wants to speak at the eleven o'clock hour on "The Bible School"—A Religious Obligation and Opportunity. Many people should hear this discussion.

At night we will be back in our regular schedule, with the Young Peoples meetings and the preaching service. Come and bring your friends to the house of God for worship and for spiritual help and healing. We are encouraged by the presence of some visitors, both of Hondo and vicinity and also from the surrounding towns. A hearty welcome is extended to any and all such, to be and feel at home in our midst. Most fervently do we pray God's richest blessings upon all friends.

The Meeting for Prayer, Beginning Wednesday evening next, at 7:30 o'clock, we plan to resume our mid-week prayer service and Bible study. This service will be brief as to time consumed, but we hope to make it very helpful to all who come.

Read the following from the Wall Street Journal. "What America needs more than a railway extension, Western irrigation and low tariff, and a bigger cotton crop and a larger wheat crop, is 'a revival of religion.' The kind that father and mother used to have. A religion that counted it good business to take time for family worship each morning and night in the midst of wheat harvest. A religion that prompted them to quit working a half hour earlier on Wednesday night so the whole family could get ready to go to prayer meeting." If all New York did this, with all America, we would have less hell and more prosperity for all.

THURSDAY BRIDGE CLUB.

Mrs. W. H. Smith entertained the members of the Thursday Bridge Club and several additional guests at bridge Thursday afternoon of last week. A theme featured by yellow summer chrysanthemums was carried out in the living room.

High score prize and low prize for the members were embroidered pillow cases and were won by Mrs. H. J. Meyer and Mrs. L. J. Brucks. High guest prize of a glass water set went to Mrs. Volney Boon.

The hostess served a refreshing lunch of chicken salad, saltines, ice cream tarts and iced tea.

Those present were Mesdames O. B. Taylor, T. B. Knopp, Horace Bradley, Earl Starnes, L. E. Heath, H. J. Meyer, J. M. Finger, L. J. Brucks, R. J. Noonan, Ed. Connevey, Earl Boon and Volney Boon.

BACK FROM INTERESTING TRIP.

Mr. and Mrs. A. Broeder and little son, R. C., Mrs. Broeder's mother, Mrs. W. F. Cook, and her grandson, Joe Moth, Jr., all of Houston, arrived here Thursday night of last week on their return from a 3000-mile pleasure drive over Colorado and New Mexico. The party saw many wonderful sights and had some thrilling experiences, not the least of which was a twenty-five mile drive up Pike's Peak. On the return trip they made the entire distance of 500 miles from El Paso to Hondo in one day. The entire drive was made without any mishaps more serious than a couple of flats, and was enjoyed by every one of the party. After resting and visiting relatives here a few days, they returned home to Houston.

EASTERN STAR CELEBRATES ANNIVERSARY.

Members of the local Chapter Order of the Eastern Star and a number of invited guests were delightfully entertained at the lodge rooms Thursday evening.

Worthy Matron Mrs. V. P. King had charge of the program. Several piano and vocal selections by some of Hondo's talented musicians were greatly enjoyed. The troubles of a modern maiden pestered with too many persistent wooers, with Mrs. McWilliams acting the part of the maid, afforded some amusing lessons in the modern art of camouflage. A burlesque comedy drama of a country family crossing a railroad track, with Dr. O. B. Taylor representing the father; Miss Willie D. Fly, the mother; and Willie Crow and Mrs. Henry Windrow the children and Dr. T. B. Knopp, the depot agent, created considerable amusement for the audience. Another amusing feature was a pantomime, under the direction of Miss Thelma Lynch, in which, by turning back the leaves of the old family photograph album, several now prominent Hondo people were shown as they "were" when only a "promise" of what they have since come to be.

An interesting biographical sketch of Robert Morris, the founder of the Order of the Eastern Star, the anniversary of which founding the entertainment was celebrating, was read by Past Worthy Patron, Dr. O. B. Taylor. The sketch was replete with interesting historic data, pertaining to this great organization.

Following the formal program, impromptu addresses by Prof. W. N. Saathoff and Rev. R. W. Merrill afforded an appropriate finale to the "feast of reason and flow of soul" that marked well thought out splendidly rendered program.

A delightful plate lunch was served, after which the members and guests departed among many expressions of appreciation to all who had contributed to the pleasures of a most delightful evening.

COMING UP.

Friends! Here is an announcement that should be of great interest to all of you.

The Medina County Fair will be in progress October 2-3-4 at Hondo. It will not be the largest fair, but it will be the greatest little fair you ever wished to attend.

The farmers in the district are slated to have raised the best crops in the country this year. And therefore, folks! Why not bring in your best corn, cotton, or what have you for the exhibits, which, by the way, will be the best and largest we've seen in a long time, if ever. And don't forget the prizes, many which are cash. Maybe you could use a little cash. Alright!—Send something in!

SCHOOL ANNOUNCEMENTS.

Seniors will register Friday morning, September 4, at nine o'clock, juniors at one-thirty Fri. afternoon, sophomores at nine Saturday morning, and freshmen at one-thirty Saturday afternoon. Students who expect to take exams, high school or grades, should notify the superintendent of such intentions; the examinations will probably be given Monday afternoon, September 7th.

A recent ruling from the State Department has made it mandatory that we require for graduation sixteen units in addition to those granted for physical education. Students who expect to graduate next spring must be governed accordingly.

W. M. S. MEETS.

The W. M. S. of the Baptist church met at the home of Mrs. J. M. Mulcahy, with Mrs. Mulcahy and Mrs. Newell Woolls as joint hostesses. After an interesting lesson in the magazine, "In Royal Service," refreshments of iced tea and cake were served to the following members: Mrs. R. Merrill, Mrs. Jim Fusselman, Mrs. Marvin Beal, Mrs. W. Ernest Mrs. H. O. Crow, Mrs. Jack Fusselman, Mrs. O. Crow, Miss Fanny Carle, Mrs. Woolls, Mrs. Mulcahy, and one visitor, Miss Lizzie Wright.

SALE! SALE!

TWO BIG SALES, starting Thursday, September 3rd. ONE CENT SALE and TWO IN ONE Sale. Be sure and come.

WINDROW'S DRUG STORE.

ST. PAUL'S LUTHERAN CHURCH.

Why belong to the Church? Because church-membership is a public confession of one's faith. Jesus said: "He that confesseth Me before men, him will I also confess before My Father, which is in Heaven, but he that denieth Me before men, him will I also deny before My Father, which is in Heaven." Matt. 10, 32-33.

Next Sunday the worship will be held in the English language at 10:30 o'clock. Our services are public and therefore everyone is invited to attend.

The Sunday school will meet at 9:15. The story-telling hour presents the life of David. Church attenders are invited to come at ten o'clock and listen to the telling of the story.

Sunday night, September 6, the Luther League will meet at 8 o'clock. All members are urged to be present if at all possible. There are several very important business matters which must be taken up at this session and dispensed with. Marvin Muennink is the leader for the topic, "The Youth Movement in the Church."

The Lutheran Choir will assemble Wednesday night at 8 o'clock for rehearsal. Some special music for Mission Rally Day, which will be held October 18, will be practiced.

NEW FOUNTAIN METHODIST.

A very interesting and profitable program was rendered by the New Fountain young people, and a message by Brother Lancaster brought the climax to a high point. Everybody also enjoyed the social hour.

Program for Sunday, September 6: Sunday School at 9:30 A. M.

The morning worship hour will be one of great interest and value at the usual time, 10:45 A. M. Brother Wehner, District Lay Leader, will bring the message at the above mentioned hour.

At 3:00 P. M. class in "Worship in the Sunday School," will be taught by the Pastor.

Epworth League, 7:45 P. M.

Evening service, 8:15 P. M. The Pastor will preach on the subject, "Our Modern Age."

Every Wednesday church night, 8:15 P. M.

Some Christians are like canned fruit—sealed tight to keep from working.

The church needs men—yes—but men need the church.

E. W. DECHERT,
Pastor.

DR. AND MRS. O. B. TAYLOR ENTERTAIN.

Complimenting the members of the Thursday Bridge Club and their husbands, Dr. and Mrs. O. B. Taylor entertained with a delightful bridge Monday night. There were four tables arranged for bridge.

Punch was served during the evening.

Mrs. Horace Bradley won a lovely crystal bridge set and Mr. John Finger won an ash tray for high score.

Those present were Judge and Mrs. L. J. Brucks, Mr. and Mrs. L. E. Heath, Mr. and Mrs. Earl Starnes, Mr. and Mrs. J. M. Finger, Mr. and Mrs. Horace Bradley, Dr. and Mrs. T. B. Knopp, Dr. and Mrs. W. H. Smith, Dr. and Mrs. H. J. Meyer.

TUESDAY BRIDGE CLUB.

Mrs. Elsie Worden was hostess to the Tuesday Bridge Club, having four tables of players. Large baskets of golden glow were attractively placed about the living room.

Members and guests present were Mesdames Garland Martin, L. E. Kollman, Henry Merriman, Elmer Leinweber, Jack Lacy, Barnitz Carle, Richard Reily, Horace Bradley, Marvin Beal, Robert Kollman, Earl Starnes, Earl Boon, B. R. Bradley, R. W. Speece, Miss Fanny Carle and the hostess.

LECTURES ON MUSIC.

Under the auspices of Miss Florence Brush, who is opening a music class here on September 14, Miss Henrietta Pyle, State Representative of the Progressive Series of Piano Lessons, gave an interesting lecture at the High School Auditorium, Friday afternoon at 4 o'clock. Only a small group was present but to the mothers whose children are entering into music classes the lecture on Progressive Series was an enlightening and entertaining one.

HONDO BADGERS PROMISE TO BE POWERFUL TEAM.

Numerous Lettermen Return, Manager Fluker to be Back.

Prospects of the 1931-32 Badgers basketball team being a powerful team are exceptionally bright at the present time. Although school does not open until next week and basketball season, even for the early starters is far off, the fans and players can not help but realize that Hondo will boast a powerful independent team this year. Many things indicate that the Badgers will have the strongest team in the county. Returning lettermen, of last season and previous seasons, the same manager, good recruits all point to the making of a great team.

Of the eight lettermen awarded sweaters last year, five are to return. Two, Jack Mask and Bradley Bailey, have lettered two years with the Badgers and will make a pair of dependable guards. Roy Schweers, forward; Ralph de Montel, center; Homer Rehe, guard, are one-year lettermen to return. To strengthen this combination two lettermen of the 1929-30 season are being counted on as team members. Both E. C. Rucker and Leo Pettis have announced that they will be with the Badgers this year. The three players lost by the Badgers are two-year lettermen. Glynn Jones will go to college, Tony Taylor intends to play with the high school and captain Carter Snooks has moved to San Antonio.

Another feature that helps the prospects of the Badgers is the return of Mr. Glenn Fluker, who will resume his duties as Manager and Coach of the organization. Manager Fluker has proven himself a wonderful leader for the group and is respected and admired by every Badger. The Badgers were forced to change managers last year, because of the removal of Rev. Albert Nelson.

Three who have announced they will join the Badgers this year are Carol Jones, Edward Armstrong and Benny Bradley. All three are capable of becoming cogs in the Badger machine and the Badgers are counting on Carol Jones developing into a neat, accurate shooting forward.

The Badgers propose to pass a ruling that will prohibit their players from belonging to any other team. This will be done so the Badgers will be eligible to enter several tournaments, which require that team members be players on only one squad. At present, it appears that the Badgers will take part in at least three tournaments this year.

Definite arrangements for the starting of practice have not been made. Should the Fair Association desire the Badgers to play during the Medina County Fair in October, the Badgers will start practice within the next two weeks.

ELITE BRIDGE CLUB.

Mrs. Volney Boon was hostess to the Elite Bridge Club and several guests, Wednesday afternoon, with two tables of bridge. Mrs. Earl Lacy won the club prize and Miss Frances Finger received the guest prize.

The hostess served refreshing peach ice cream and cake at the conclusion of the games.

Those present were Mesdames Melvill Lippold, Earl Lacy, Henry Windrow, Ed. Connevey, Robert Kollman, Earl Boon, J. M. Finger and Misses Frances Finger, Madeline Droitcourt and Lucille Boon.

NOTICE P. T. A.

The regular meeting of the Parent Teacher Association will be held on September 14, followed by the Recreation and an interesting program for the teachers. Pencils with the name of the school stamped upon them will be on sale at Mrs. Walter McClagherty's and on the school grounds on registration day and every day thereafter. Students are requested to get their pencils from the P. T. A. in order to help defray expenses.

TRADES DAY.

Hondo's second year featuring the Trades Day will begin next Wednesday, September 9, 1931, at the usual time on College Square. The usual prizes of a cow, a pig and a pen of chickens and special prizes will be given away. Bring your tickets.

Order your rubber stamps of all kinds at the Anvil Herald office.

DEVINE NEWSLETS

From The Devine News.

JUSTICE COURT IN SESSION AGAIN MONDAY.

Justice Hardeman's court was in regular session again, Monday, and County Attorney H. E. Haass was over from Hondo. Not much business on the docket. One man was tried before a jury, charged with reckless driving an automobile, and was found not guilty. Since two people were killed and two or three maimed here two weeks ago the local officers have been asked by the people to suppress reckless driving.

Miss Lucille Van Fleet has returned to her home in Hondo after a visit with Miss Willie B. Halliburton.

Miss Willie B. Halliburton complimented her guest, Miss Lucille Van Fleet, of Hondo with a bridge and buncos party on Thursday evening. Floor baskets and vases of roses, regina corona, and pink zinnias adorned the living room and reception hall. Those enjoying this affair were Misses Lucille Van Fleet, Allena Redus, Lucille Williamson, Kathleen Teel, Louria Teel, Elizabeth Marshall, and Messrs. Wilbur Keeton, Simms Halliburton, Elliot Morris, George Carter, Spencer Secret, Horace Owens and Roy Howard.

FROM YANCEY.

Mr. H. G. Hardt is enjoying visits from all of his children this week, some have been absent from three to five years. The following attended church here yesterday: Rev. Dan Hardt and children of Kingsville; Rev. Louis Hardt and family of Fair Rock; Rev. Wesley Hardt and family of Tom Ball; Prof. Henry Hardt of New York; Rev. Charles Hardt of Warsaw, Poland; Prof. Henry Hardt of Victoria; Miss Alice Hardt of Torreon, Mexico. A barbecue dinner was prepared on Monday at the home of Mr. Anton Hardt, after which, one by one, will leave for their respective homes.

Our pastor, Rev. Rogers, spent last week at Denison, where his aged parents reside.

On Sept. 3rd the Zone meeting of the Missionary Society of the Uvalde District will meet at the Yancey Methodist church and we are anticipating a large attendance.

Miss Flossie Gerdes visited her parents last week-end and returned to San Antonio Sunday.

From the last report Mr. Fritz Faseler was doing very well after his operation.

We have had several light showers during the last few days.

FROM BIRY.

Mrs. Chas. Buss and children from San Antonio spent the week-end with her mother, Mrs. J. A. Blackburn.

Mrs. Albert Bilhartz and daughters spent one day the past week in Hondo.

Rev. and Mrs. Albert Nelson and daughter from Brownwood spent Thursday evening here.

Mrs. Earnest Hardt and children from Mirando spent one evening the past week with her grandfather Love.

Mr. and Mrs. Chris Hanson and son from Overton is spending some time with her parents, Mr. and Mrs. A. O. Biediger.

Mr. Charley Buss from San Antonio spent the week-end with Mr. and Mrs. Raymond Blackburn.

Mr. and Mrs. Homer Thompson and children from Bruni and Mrs. Lula Williams from Devine spent Thursday evening with Hugh Love.

Mr. and Mrs. Alfred Biry of Devine spent one day the past week with Jacob Biry.

Ralph Bader and Miss Lucille Bader spent last Thursday at D'Hanis.

A. O. Biediger and Chris Hanson spent a few days at the Maling Lake fishing.

Ernest Schneider, Alvin Bader, Aaron Bilhartz, Marvin Haass spent the week-end at Medina Lake fishing.

Mr. and Mrs. Geo. Bader and son, August, went over to San Marcos one day the past week after their son, Mat, who has been in school and will be home one month before returning to school.

EASY TO HANDLE THE BEE STING IF YOU KNOW HOW.

The sting of the honey bee is painful, but interesting. If the victim understands the structure and operation of the bee's defense weapon, he can prevent much of the pain and swelling. J. L. Hambleton, in charge of the bee culture laboratory of the United States Department of Agriculture, gives this cheering information.

When a bee stings its victim it tears itself from its sting, a sacrifice which costs the insect its life. But the sting left in the skin has just started on its way, for it and the poison sacks attached are equipped with muscles which tend to drive it deeper and deeper.

The sting is composed of two lancets, each provided with a series of sharp barbs pointing backward similar to a harpoon. The reflex action of the muscles attached to the stinging mechanism is such that first one lancet is driven into the flesh, where it anchors, then the other, and so on, each lancet going a little deeper and becoming more firmly lodged. During this time the muscles are also squeezing the poison sacks in such a manner that poison is constantly being pumped into the wound.

Most persons make the mistake of trying to pull out the sting. When this is done the pressure of the fingers empties the poison sack into the flesh. The sting should be immediately scraped or scratched out, and since no time is to be lost looking for a knife or even in opening one, the fingernail is the best thing to use in the emergency, says Mr. Hambleton, who has frequently made the demonstration before interested visitors at the bee culture laboratory.

With the brief explanation given by Mr. Hambleton anyone may become a good demonstrator, but he should not expect the process to be entirely painless.

FINDS POTATO ANTIDOTE FOR BITTER WEED TASTE.

D. J. Strickland has a sure shot to remove the taste of bitter weed in milk, and got the recipe from a Memphis dairyman.

Slice an Irish potato and put in the

jar of milk and let it remain until the milk turns, ready for churning, and it will take the bitter out.

Mr. Strickland, who lives on Mack Simpson's place north of the city, says their pasture has been so badly infested with bitter weed this summer that they could not drink the milk, but the potato removes the bitter taste.

The above story, taken from the columns of the Holly Springs (Miss.) South-Reporter, reveals an important discovery. Weed flavors of various kinds in milk have long been the bane of the dairyman, and it follows that if there are chemical elements in a fresh potato which will neutralize so strong a flavor as that of bitter weed it will act the same way on other (if not all) noxious flavors caused from weeds.

Here is something for our chemists and Experiment Station experts to investigate, and if an extract can be taken from the Irish potato which

when applied to milk in the souring process, will remove obnoxious flavors from it as successfully as a similar extract from the carrot will color butter when applied to cream in the churning process, Mr. Strickland will have proven himself a benefactor to human kind for having put the experts on the trail of so important a scientific discovery.

Mr. Strickland and the editor of this paper were boyhood playmates, and where we used to ramble barefooted over the lespedea clover fields when boys together the bitter weed has almost taken possession. Here is hoping his discovery may prove as valuable as it seems to promise.

Wourtny—Did you have any experience with sharks while at Miami?

Cinchell—Yes, I stayed in my hotel room all the time and even there they got me.—The Pathfinder.

EXCESS acid is the common cause of indigestion. It results in pain and sourness about two hours after eating. The quick corrective is an alkali which will neutralize acid. The best corrective is Phillips Milk of Magnesia. It has remained standard with physicians in the 50 years since its invention.

One spoonful of Phillips Milk of Magnesia neutralizes instantly many times its volume in acid. It is harmless and tasteless and its action is quick. You will never rely on crude methods once you learn how quickly this method acts. Please let it show you—now.

Be sure to get the genuine. "Milk of Magnesia" has been the U. S. Registered Trade Mark of The Charles H. Phillips Chemical Company and its predecessors Charles H. Phillips since 1875.

FINE FARM FOR SALE.

The John C. Merriman 340-acre farm, 2 1/2 miles south of Hondo, on Hondo-Yancey graveled road is for sale. Three hundred and thirty acres in high state of cultivation, ten acres in traps for work stock. Good five room residence, three tenant houses, necessary out-buildings; 68-foot well that has never been known to go dry, equipped with both windmill and gasoline engine. Forty-five dollars per acre will take this farm, together with teams, tools and other equipment now on farm, or will sell without these. Thirty-five hundred cash and easy terms on balance will put you in possession of this fine farm. For further particulars, consult the owner or see either member of the HONDO LAND CO.

A GOOD TOURIST CAMP SITE.

The Thomas Goodpasture four-acre tract, just north of the Hondo bridge sixty yards off Highway No. 90 is for sale. This tract is well drained, has a splendid well of water and would be an ideal place for a tourist camp and filling station catering to highway traffic. If preferred, is equally well adapted for a chicken farm. For price (and terms if wanted) see the owner on the premises or apply to either member—

HONDO LAND CO.

A FINE RANCH.

Here is an ideal ranch for some one, 1920 acres of fine grazing land, twelve miles from national paved highway, sixty miles west of San Antonio. All fenced, one 400-foot well of everlasting water, gasoline engine, concrete reservoir and water trough, two fine ground tanks. Five hundred acres of tillable land. Ideal for stock-farming. Can be had for only \$11.00 per acre on easy terms, but will accept no trades. For further particulars address

HONDO LAND CO.

Fletcher Davis, Phone 127.
Geo. H. Kimmey, Phone 172.

GRAB THIS FARM.

A 371-acre farm three miles west of Yancey on good road, good 2-room house, barn, garage, etc., and 160 acres in cultivation. Two good wells equipped with pumps and storage tank sufficient to irrigate considerable tract. Buy this farm and be prepared for all kinds of seasons. Only \$35.00 per acre and terms easily arranged. See us now.

HONDO LAND CO.

The W. F. Miller homestead in northeast part of town consisting of a two-acre block of land. Can be remodeled into comfortable home with ample room for garden, orchard, etc. For price and terms see the owner or either member of the Hondo Land

GOOD BUY NEAR SCHOOL HOUSE.

Three hundred dollars will buy lots 1 and 2 out of Block No. 3 in Miller addition near the school house. See either member of Hondo Land Co.

FARM FOR SALE.

The L. J. Schmidt 640-acre farm 1 1/2 miles north east of Yancey and one mile east of Yancey-Hondo road is for sale on easy terms. This is a beautiful tract of land lying in a square and faced along the entire south side by a public road. It is a fertile sandy loam soil and every foot is tillable. There are three fields, one of 185, another of 177 and another of 10 acres or a total in fields of 372 acres. The balance of 310 acres is divided up into two pastures, and a trap for the work stock and all three are accessible to and are watered by a large earthen tank. This tank is kept constantly supplied by the over-flow from a never failing well nearby. The well is fifty feet deep and has never failed in water. It is equipped with windmill. Also there is a 90-foot drilled well with a head of 45 feet of water within 100 yards of the center of the track. Place is well fenced throughout, has two comfortable tenant houses, big double barn and other out buildings. Property is located in a good neighborhood, in easy walking distance of a first-class agricultural high school, postoffice, store and Methodist and Baptist churches. Place will be sold on terms at \$40.00 per acre or with full equipment of nine mules, two horses, two wagons and all necessary implements and tools for cultivating the farm at \$42.50. The man wanting a good farm home or a farm investment can find no better buy than is offered in this place. If interested do not delay but see at once the owner, L. J. Schmidt or either member of

One of the prettiest homesteads in the Los Angeles Heights Addition, San Antonio, being lots 11, 12 and 13 of the Southeast corner of block 14. Outside the city limits but convenient to graveled streets and good schools.

If you do not see what you want here tell us anyhow; we'll find it for you.

50-horsepower 6-cylinder 109" wheelbase 1/2-ton capacity CHEVROLET TRUCKS priced as low as \$440* complete with Chevrolet-built bodies

Illustrated at the right are some of the half-ton models included in Chevrolet's complete line of trucks—which consists of 1/2-ton and 1 1/2-ton models in three wheelbase lengths.

Take the question of first-cost—and you learn that the Chevrolet Six is one of the lowest priced trucks you can buy!

Investigate economy—and you discover that the Chevrolet Six is more economical to operate than any other truck, regardless of the number of cylinders.

As for speed and power, Chevrolet gives you a six-cylinder 50-horsepower engine—25% more powerful than the engine in any other truck in the lowest price field.

And when you consider capacity, you find that Chevrolet's longer wheelbase, sturdy frame and long springs permit the mounting of extra-large Chevrolet-built bodies.

Before you buy a truck for any purpose, check up on these facts about Chevrolet's complete line of six-cylinder haulage units. Your Chevrolet dealer can supply full information.

Half-ton 109-inch wheelbase chassis \$355 1 1/2-ton 131-inch wheelbase chassis \$520 1 1/2-ton 157-inch wheelbase chassis \$590

(Dual wheels \$25 extra) (Dual wheels standard)

*\$440 is the price of the open cab pick-up. All truck chassis prices f. o. b. Flint, Michigan. Low delivered prices and easy G. M. A. C. terms.

LACOSTE LEDGERETS.

From The LaCoste Ledger.
From the LaCoste Ledger.
ILTIS-ETTER.

The wedding of Miss Vera Etter, the accomplished and oldest daughter of Mr. and Mrs. Chas. Etter from the Sauz, and Mr. Leon Itlis, oldest son of Mr. and Mrs. Wm. Itlis of Delta, was solemnized in St. Mary's Church in San Antonio on Wednesday morning, August 19th, 1931, with Very Rev. T. J. Kennedy, O. M. I. officiating at the ceremony and was also celebrant of the Nuptial Mass which followed.

Attendants were Miss Marie Itlis and brother, James, sister, and brother of the groom.

Immediately after the ceremony Mr. and Mrs. Itlis left for a brief visit to Galveston and other points, after which they will make their home in San Antonio.

The bride is a graduate of the Santa Rosa Training School, while the groom is a member of the Fire Department in San Antonio. Both have been making their home in San Antonio for the past years.

This paper joins the many friends of Mr. and Mrs. Itlis in wishing them a long and happy married life.

On Tuesday morning, September 1st, St. Mary's Parochial School will start its 1931-32 term with Sisters of Divine Providence in charge.

Mr. James Kroeger, oldest son of Mr. and Mrs. Gus. Kroeger from here and Miss Albina P. Dalacia were happily married in San Antonio at 11:30 Tuesday morning, August 25th, 1931.

LACOSTE-CASTROVILLE ROAD REPAIRED.

Com. Robt. Rihn has a force of men at work grading up and filling in gravel at the low places on the LaCoste-Castroville and Riomedina Road.

The work was started at Riomedina several weeks ago and is now near LaCoste. This was indeed a good move for the Commissioner as the said road was in a deplorable condition.

Com. Rihn informed the writer that the good work will be continued right through LaCoste to meet the tarviated LaCoste-Madonna Road at the Bexar County line.

LACOSTE PUBLIC SCHOOL OPENS SEPT. 14th.

The trustees of the LaCoste High School have had the school buildings repaired and painted the past weeks and work on concrete walks has also started, all will be ready for the opening of school which will be on Monday, September 14th.

The faculty for the 1931-32 term is as follows:

R. A. Mitchell, Principal; Miss Anna Laura Duderstadt, Miss Ruth Duderstadt, Mrs. R. A. Mitchell and Miss Shyllie Warren, teachers.

Gus Meyer from Atascosa was a short visitor here Monday evening.

Eugene J. Keller was a San Antonio visitor last Thursday.

Mrs. William Itlis and daughter, Miss Marie, from Delta were visitors here Monday.

Mr. Arthur Biediger and brother Edward, spent the past week-end at Corpus Christi.

Mrsrs. John Koenig and M. C. Lane were San Antonio visitors on Monday.

Mrs. Hildegard Franger from San Antonio was visiting homefolks here Sunday.

Born to Mr. and Mrs. Adolph Hutzler, a baby daughter, Tuesday, August 18th, 1931.

B. FitzSimon and children and Mrs. Louisa Bohl from Castroville were LaCoste visitors last Saturday.

Mr. and Mrs. Arthur Mechler from the Sauz were San Antonio visitors last Friday.

Mr. and Mrs. Jacob Rihn from Spindletop were LaCoste visitors on Tuesday.

Miss Ruth C. Lawler and aunt, Mrs. E. A. Pierpont, from Castroville were LaCoste visitors Wednesday.

Mrs. George Tondre and daughter from Lytle were visitors here Wednesday.

Mr. and Mrs. P. F. Christilles and children were San Antonio visitors Wednesday.

Mr. and Mrs. Robert Mechler and daughter, Doris, from the Sauz were San Antonio visitors last Saturday.

J. M. Mechler and sons, Robert and Arthur, from the Sauz were business visitors in the Alamo City last Thursday.

Mr. and Mrs. Ed. Bourquin and daughters, from Devine were visiting Mr. and Mrs. John Koenig and daughters here one day last week.

Mrs. J. C. Biediger and sons are spending the week with Mr. and Mrs. W. A. Luckenbach and family at Seguin.

Mr. and Mrs. Henry Mangold and daughter, Mrs. R. P. Geiger, and children spent Sunday with Robert Mechler and family at the Sauz.

Mr. and Mrs. W. F. Biediger and children, Mrs. Henry Biediger and Misses Marie Christilles and Anna Mae Bendele were San Antonio visitors Sunday.

Mr. and Mrs. Joe Schmidt and daughters, Miss Mildred from Devine and Mrs. Mary Cook, and son, A. J., from Hondo were visiting Mr. and Mrs. George Christilles here Monday.

Eugene Bendele from the Francisco Perez was a LaCoste visitor Tuesday. He was accompanied home by his sister, Anna Mae, who had spent the past two weeks with relatives here.

Mr. and Mrs. Edwin Moose and Mr. and Mrs. Oscar Moose and daughter from Rutherford Springs were the guests of the Reus family here Sunday.

Mesdames Lena Reicherzer, Theresa Jungman and Oswald Keller, and son and Mary Ellen McKaig were visiting Mrs. Edmund Jungman at Spindletop Tuesday.

Miss Elizabeth Mechler was a San Antonio visitor last Friday. She was accompanied home by Mrs. Leontine Kiefer, who spent the week-end with relatives and friends here and at Castroville.

Mrs. John Geiger and son, Walter, were San Antonio visitors Monday. They were accompanied there by Miss Olga Geiger, who had spent a several weeks' vacation with homefolks here.

Mr. and Mrs. D. J. Christilles and children were visiting Mr. and Mrs. Frank Mechler and family in San Antonio Sunday.

Mr. and Mrs. R. D. Bippert and son, Vernor, were visiting Mr. and Mrs. Fritz Waltisberger in San Antonio Sunday.

Misses Josephine Vogel from D'Hanis, Madeline Drotcourt from Hondo and Wilhelmina Biediger from Spindletop were LaCoste visitors Wednesday.

Mr. and Mrs. J. M. Mechler and Mr. and Mrs. Ed. Grossenbacher from the Sauz were visitors at the Brackenridge Park in San Antonio Sunday and also paid Mr. and Mrs. Val. Mechler and family a visit in the afternoon.

Carpenters D. R. Bippert and John Haby completed the carpenter work on the addition and remodeling of Mr. and Mrs. Alfred Stein's home at the French Settlement this week. Mr. and Mrs. Stein now have a seven room stucco home.

The infant daughter of Mr. and Mrs. Adolph Hutzler was christened in St. Mary's Church Sunday, August 23rd. The names given the young Miss were Kathleen Ruth. Sponsors were Mrs. Frank Bohl and Alex Hutzler.

Mr. and Mrs. Ed. Trip and daughter, Miss Julia, and son, Alfred, and Tony Plathouse from Madonna, Mr. and Mrs. Henry Franger and family, Michael Franger and Miss Marie Itlis from Delta, Miss Elsie Mechler and Elmer Mechler spent last Friday evening with Mr. and Mrs. Arthur Mechler and daughter, Mabel, at the Sauz.

QUIHI NOTES.

"They that will be rich fall into temptation and a snare, and into many foolish and hurtful lusts, which drown men in destruction and perdition." 1 Tim. 4, 9.

Sunday morning at 9 o'clock the Bethlehem Lutheran Sunday school and Bible class begin in Bethlehem Lutheran church. A cordial invitation to come to this service is extended to all.

Divine services will be held in Bethlehem Lutheran church as follows: In the German language at 10 o'clock A. M. and in the English tongue at 7:45 P. M. Please note the time for the English service and bring your English hymn books with you. All are welcome at all services in this church.

Divine service will be held in St. John's Lutheran church of New Fountain Sunday afternoon, September 6th, at 2 o'clock. You and your friends are cordially invited to this and all services in this church.

Last Sunday night the Quhi Luther League rendered a splendid program of select musical and literary numbers. Every number on the program was interesting and was rendered excellently. Special numbers on the program were interesting and appreciative talks by Mrs. E. Oeffinger, Mr. Jacob Saathoff and Rev. K. Konzack of Castroville. An audience much larger than the capacity of the church was present to hear and enjoy this program. All present were benefited and well rewarded for having turned out. The next program is scheduled to be given Sunday night, September 27th.

YOU'LL GET RELIEF OR YOUR MONEY BACK

come the new market recently opened for cotton linters, an important by-product of the industry, through the development and production on a large commercial scale of the cellulose sausage casing.

The cellulose or synthetic casing was developed and perfected by Dr. William E. Henderson and Harold F. Dietrich in experimental and research work at the University of Pittsburgh, under the Erwin O. Freund Food Container Fellowship, which was established in 1916.

Work on the search for a better,

more sanitary sausage container started shortly thereafter, and while cellulose was at that time virtually decided upon as the best successor to the animal casing, the scientists were confronted with the problem of selecting the best of the various methods of manipulating cellulose.

After the various methods had been studied the viscose method was selected as most suitable for the work. Then followed a period of about 10 years experimental work to produce a synthetic casing of efficiency at a cost low enough for it

to compete commercially with the animal casing.

This attained, after long research, the Visking Corporation of Chicago began to manufacture the product for the trade. Today more than half of the sausage makers in the United States are using the cellulose product and the demand is steadily increasing.

In the manufacture of the casings, the chemical cotton is mercerized with sodium hydroxide and then pressed to eliminate any surplus of caustic liquor. This produces an

alkali cellulose, which is disintegrated and allowed to age in order to control viscosity. Placed in revolving churns, carbon disulfide is added. Rapid solution and mixing follows. A four-day ripening period is then required during which filtration takes place and air bubbles are eliminated. From this process the viscose is conveyed in pipes to casing machines and, under pressure, flows from various size nozzles into coagulating tanks. Solidified by the chemical process, the seamless tubes are then complete.

P.A. rolls easy and stays put!

2 full ounces in every tin. Rolls easy and stays put

AM I sold on Prince Albert for home-rolled cigarettes? Ask me another! I like P.A.'s fragrance. And I like the way P.A. rolls, it rolls easy and stays put. But the big point in P.A.'s favor is its marvelous taste. Cool as a summons to serve on the jury. Sweet as the news that you have been excused. Mild and mellow beyond description, but with that full, rich tobacco-body that satisfies your smoke-hunger to the absolute limit. Try rolling 'em with P.A. Try this tobacco in your pipe, also.

CHILDREN CRY FOR IT—

CHILDREN hate to take medicine as a rule, but every child loves the taste of Castoria. This pure vegetable preparation is just as good as it tastes; just as bland and just as harmless as the recipe reads.

When Baby's cry warns of colic, a few drops of Castoria have him soothed, asleep again in a jiffy. Nothing is more valuable in diarrhea. When coated tongue or bad breath tell of constipation, invoke its gentle aid to cleanse and regulate a child's bowels. In colds or children's diseases, you should use it to keep the system from clogging.

Castoria is sold in every drug store; the genuine always bears Chas. H. Fletcher's signature.

Fletcher's CASTORIA

Renewed and new subscribers to this paper are as follows: F. F. Muenink, Hondo; Henry Schulte, Hondo; Mrs. C. W. Gilliam, Hondo; Rev. Aug. Petz, Valley Mills; Milton Falkenburg, Dubuque, Iowa; Ambrose Zimmermann, San Antonio; L. W. Graff, Hondo; Chas. Nielsenhofer, Hondo; Mrs. A. Broeder, Houston; Ben Langfeld, Hondo.

Five Sisters of the Holy Ghost arrived Tuesday afternoon from their Mother-House in San Antonio to take charge of their teaching duties at St. John's Catholic School and the Mexican School of Our Lady of Sorrows. The parochial schools will probably begin Tuesday, September 8, for the term 1931-32.

Seven cars of threshed grain sorghum and three cars of new crop corn have been shipped from this point during the past week. While the price is disappointingly low the crop is fortunately abundant, and its sale should bring considerable money into the country and stimulate business somewhat.

Dorothy Rothe, infant daughter of Mr. and Mrs. Eric Rothe, left last week for her home near D'Hanis after a sojourn of seven weeks at the Medina Hospital, where she was under the care of doctors and nurses. The little Miss weighed four pounds on her departure.

Dove season now on in North Zone. Buy your hunting license at my Store, where you will find a large stock of the best standard shot guns, rifles, Remington and Winchester shells, 25-35, 90 cents. Every article at rock-bottom prices for cash. C. R. Gaines.

Mrs. Joe Bader, Mrs. S. A. Jungman, Mrs. Leo Schweers and Mrs. Alice Bertrier went to San Antonio Tuesday to see the twin sons of Mr. and Mrs. Elmer Zimmerman and the great grandsons of Mr. and Mrs. J. F. Bader of Hondo.

Mr. and Mrs. Tom McFarland and daughters, Lucille and Cecille, returned to their home in Del Rio Monday, after several days visit with Mr. McFarland's sister, Mrs. C. W. Roberts.

FASTER

makes a better
seedbed

THE CASE Great Plains Disk Plow is the best tool you can have for preparing the seedbed because it covers the ground two or three times faster than moldboard plowing—with the same power.

Speed, and better seedbed preparation—at lower cost, have an important bearing on reducing costs and increasing profits. Case Great Plains Plow owners are getting those extra profits in just that way.

Having disk cylinder in sections, which are connected to work as one, is an exclusive Case

feature. One section can be removed for unusually hard plowing. All disks must turn. Heavy "I" beam frame and plow cupped disks—heat treated—combined with properly weighted wheels, produce satisfactory penetration under most any condition. Magazine type wheel boxes make frequent greasing unnecessary. Don't fail to investigate the profit producing possibilities of a Case Wheatland Plow. Come in soon and ask to see one of these machines. You can depend on us for prompt and courteous service.

RUPTURE EXPERT HERE

C. F. REDLICH, Minneapolis, Minn., will demonstrate without charge his unequalled method in
SAN ANTONIO

ON THURSDAY, SEPTEMBER 10th.

At the
JEFFERSON HOTEL

From 10 A. M. to 4 P. M.—Please Come early.

Mr. C. F. Redlich says:
The "Perfect Retention Shields" hold the rupture perfectly, no matter what position the body assumes or how heavy a weight you lift. They give instant relief and contract the opening in remarkably short time.

The secret of their success is in their simplicity. An expertly adjusted device seals the opening without discomfort or detention from work. It is practically everlasting, sanitary, comfortable and actually holds ruptures which heretofore were considered uncontrollable.

Stomach troubles, backache and constipation, nearly always a consequence of rupture, promptly disappear.

Bring your children. According to statistics 95% recover by our method.
ATTENTION: You cannot fit your self with appliances sent by mail. It requires personal attention by an expert to obtain lasting results.

HOME OFFICE.

TEXAS AND TEXANS.
By
Will H. Mayes
"All Texans for All Texas"

Cotton Reduction.

Almost every one has his own solution of the cotton problem, but it remains as obstinate in being settled as the financial depression. When the farmers failed to plow up every third row of cotton in response to the foolish request of the Federal Farm Board, Gov. Long of Louisiana, called on all the governors of the cotton-growing States to meet him in New Orleans to adopt his plan of legislative prohibition of cotton planting in 1932. Two other governors responded to the invitation and representatives of the others were there. They voted to have the legislatures convene to pass prohibitive planting laws to be effective when States growing three-fourths of the cotton adopt similar provisions. As Texas grows one-third of the cotton, it will be for this State to decide whether the plan will be tried. All indications are that Texas will not accept the plan, at least until they can be shown some profitable use to which Texas farm lands can be put.

Objections Raised.

Objections to the plan are many. Some say they will be unable to pay taxes unless their land is planted to crops, and they urge tax exemption of all unplanted land. Others state that if the cotton land is planted in other crops prices on those crops will be lowered so much that farmers will be impoverished. Some think that if no cotton is planted in 1932, the acreage would be doubled in 1933 in the hope of securing fair prices and that the prospect of increased 1933 crops would keep cotton down to about the present prices. Many doubt the constitutional power of the legislature to deprive a land owner of the privilege of farming his land as he pleases. Many people assert that to enforce the law throughout the State would require that the entire State be placed under martial law and that this would superimpose Texas and create conditions worse than low cotton prices. While all admit the bad economic effect of low prices of farm products, many think the increased unemployment and consequent unrest would only make matters worse and say that the present problems will have to be worked out through business methods rather than by legislation.

Want Gins Stopped.

At a mass meeting of farmers at New Boston a resolution was adopted asking Gov. Sterling to put all cotton gins under martial law and prohibit running until cotton sells for at least 10 cents a pound. The meeting stated that the governor has the same right to apply martial law to cotton gins as to oil wells and that results should be as beneficial. Just another way of looking at things.

Injunctions Galore.

The truck laws passed by the last legislature are tied up by injunctions to such an extent that highway patrols have been instructed not to try to enforce them until the litigation is settled. A Comanche judge has granted a temporary injunction restraining enforcement of the peddlers' license law. It has been found that while the peddlers' law was made effective August 22, the license fee, if collectible at all, could not be collected before September 1. Much of Texas' high-priced legislation appears to be of a kind that can't stand close scrutiny.

Advancing Oil Prices.

Oil prices have improved under the shutting down of wells in Oklahoma, Texas and Kansas and it is freely predicted that they will continue to advance as the result of martial law in Texas and Oklahoma. Operators in other fields are wondering if they will continue to stay up after martial law is raised, and one person is about as good a guesser as another.

Another University.

By giving the El Paso School of Mines a full four years' course in arts and granting the school the right to give both academic and engineering degrees this branch of the University of Texas has become a university in a limited way, with every indication that its scope of instruction will be increased rapidly, in line with that at Texas Technological College and at the Texas Woman's College at Kingsville. Does Texas need so many universities?

Huge Army Investment.

About \$10,000,000 has been spent at San Antonio in the past 18 months at Randolph Field and other Army posts, the work on which will be completed about January 1. Another \$2,500,000 is to be spent in building and equipping the Army hospital and in other construction work at the San Antonio fields and posts.

Paying Off Loans.

Although the Government has made no effort to collect loans made farmers for seed and feed in drought-stricken sections, many Texas farmers are paying off the loans in part or in full, which shows that they have made some money and are again in

position to live at home without outside aid.

Rains and Grass.

Recent rains in many parts of Texas have started grass to growing in a way to assure good pasturage for live stock during the fall months. Far-sighted farmers are putting much ground in condition for fall and winter grain crops, but as yet none of them are plowing their cotton fields.

Cotton Pickers Needed.

The return of many Mexicans to Mexico in the past few months has caused an increased demand for cotton pickers in South and South-Central Texas. Despite all the talk of unemployment and the offer of cotton growers to provide transportation, living quarters, water and wood in addition to the price paid for picking, they report that they have not as yet been able to get enough labor.

News-Boy Celebrates.

The Jasper News-Boy recently celebrated its 66th anniversary by getting out a huge edition largely reminiscent of early times in Jasper county and containing many pious advertisements. The News-Boy has been the greatest single factor in the development of that county during all these years and richly deserves the united support of every business and citizen in the county. With a better support of the paper Jasper would have been a better town, and this statement applies to almost every town in Texas.

Back to School.

All Texas schools from the smallest country schools to the colleges and universities are expecting larger enrollments this fall than ever before, which shows that all Texas is more interested in education. Schools are cutting down on expenses but not on facilities for teaching. Teachers are expected and expecting to do more work than heretofore.

Too much stress has been laid in the past on "going off" to school. In at least ninety out of a hundred cases students should attend those schools closest to their homes when the courses desired may be obtained. Stay at home and go to school near your home as long as you can.

San Marcos School Building.

San Marcos has always been noted for its schools and intends to keep its reputation as a school town. A \$200,000 public school building is to be added right away to its school structures.

Celebrating Birthdays.

Lampasas and San Saba have recently celebrated their 75th birthdays. Neither of these towns has had ambitions to become a leading Texas city, but both have always endeavored to be good towns in which to live, with all necessary modern facilities for comfort. In this they have both succeeded. No towns in Texas excel them in character of citizenship.

Clothing Children.

Cuero has a welfare association composed of women who have been busily engaged for some time in making clothes to be given to needy children of the town. This is a kind of effort that can be strongly commended and that should accomplish much to relieve suffering during the coming winter.

Confidence in Oil.

The most encouraging thing about the oil situation is that so many wells continue to be put down despite the unstable conditions, which goes to show that oil men generally have hopes that better oil conditions will ultimately prevail in Texas.

PRINCE ALBERT ADVERTISING CAMPAIGN INAU- GURATED.

A special newspaper advertising campaign in behalf of Prince Albert smoking tobacco is being inaugurated immediately by R. J. Reynolds Tobacco Company, Winston-Salem, N. C. The campaign is being handled by Erwin, Wasey & Company, which also handles Camel cigarettes for Reynolds.

First copy appeared Tuesday of this week in Texas newspapers and is scheduled to start Friday in a big list of Ohio papers. Both dailies and weeklies are being used, the number in both states approximating four hundred newspapers.

The theme of the campaign is, of course, variations of the "roll your own" idea.

COLONIAL COVERINGS.

The Colonial Theatre takes real pleasure in announcing its next attraction. It is "Up For Murder," Universal's absorbing love drama which presents Lew Ayres as star, and which opens its engagement at this theatre Saturday. This colorful story is told against the seething background of a great metropolitan newspaper, and brings to the screen "the eternal triangle" in a new guise. Appearing in Ayres' supporting cast are such favorites as Genevieve Tobin, Purnell B. Pratt, Richard Tucker, Frank McHugh and Frederick Burt.

A challenge to women in love! That is the absorbing theme of the picture "Seed," filmed from Charles G. Norris' great novel, with John Boles, Genevieve Tobin and Lois Wilson in the leading roles, and scheduled for Sunday and Monday at the Colonial Theatre. It is the situation between the two women for the love of the man that dominates the action of the story. The climax of this triangle is totally unexpected. The supporting cast includes Raymond Hackett, Bette Davis, ZaSu Pitts, Frances Dade, Richard Tucker, and a remarkable group of fine children who add greatly to the enjoyment of the picture.

Richard Arlen and Peggy Shannon are co-featured in "The Secret Call," tensely gripping romantic drama of modern political intrigue in a big city, which will be the main feature on the bill at the Colonial Theatre on Thursday and Friday. The story deals with the lives of a boy and girl who are inextricably bound in the activities of a big political "party machine." The denouement is a happy one. A large cast supports Miss Shannon and Arlen.

NEW COURSES OFFERED.

Classes at Our Lady of the Lake College, San Antonio, Texas, will open on Monday, September 14, with registration on September 11 and 12. All indications point toward a large enrollment at the College with a number of additional students taking advantage of the new courses in Library Science and Physical Education which are being offered. The College is now offering four year courses toward the degrees of Bachelor of Arts, Bachelor of Science and Home Economics, Bachelor of Library Science, Bachelor of Science in Physical Education, and Bachelor of Music with major in piano, violin, voice, or school music.

FARM LOANS

The Hondo National Farm Loan Association, H. E. Haass, Sec.-Treas. Hondo, Texas, representing 260 borrowers with \$1,025,280.00 borrowed is prepared to make farm loans anywhere in Medina County under the Federal Farm Loan Act at 5 per cent interest and 1 per cent 36 year amortization repayment plan. Sixty two thousand Texas farmers have taken advantage of this system of borrowing over one hundred eighty one million dollars. Why not you? Former restrictions have been taken off and you may borrow for any purpose provided for in the Act—farmer only.

The Little Word "No"

On the little word "No" you can depend, so many times it is your friend. When a smooth slick agent comes along, this little word "No" will end his song. And any time when you want to buy, you can always say "No" if the price is too high. All through life there is much to show your success may depend on this little word "No." The HONDO STATE BANK would have much less in a very short time if it always said "Yes."

AIMS OF PUBLIC SCHOOLS

"The main objective of the public school system has been the preparation of boys and girls for college, on the theory that a college education is a panacea for all ills," wrote W. F. Bond, Superintendent of Education in the United States Daily. He continued in part:

"The college has handed down to us the course of study and other requirements to be met and we have struggled manfully and sometimes blindly to meet them."

"In the future the main objective of the public school system will not be preparation for college, but preparation for citizenship of the highest order. Preparation for college will be incidental. This will mean that the following things must be done:

1. A good, practical, conservative system of vocational guidance beginning in the junior high school and extending a year or so beyond high school graduation. Every normal child is capable of being developed into a good citizen, but no two children are alike and we must, therefore, take into consideration individual differences. By talking confidentially with boys and girls, by interviews with their parents and by bringing them into contact with successful business men and women, we can generally find out what place in life any of our students can fill best.

2. The course of study must be broadened. We shall continue to prepare our students for college but in addition there will be courses in vocational education. There will be such courses leading to high school graduation in agriculture, home economics, bookkeeping, typewriting, stenography, salesmanship, and auto mechanics.

"We will go on the theory that no child is 'dull' in every respect. It will be our business to find along what lines each child is bright and direct it into the course of study that will more nearly prepare it for the world in which it must live after it leaves school. Such a plan will increase the holding power of our schools and more boys and girls will be encouraged to take the entire course, for when they are graduated each one will know what he can do best and his training will have been in that direction.

"There will be more happiness in the schoolroom, fewer misfits in life and less unemployment. This change will not come very easily, because we are bound down by tradition to the system given to us by our fathers which was good enough in its time. The change will come, however, for it is already very evident that the need for such a change is very great. Wise use of the time our children spend in the public school will be conducive to wise use of time elsewhere."

TAX STRANGLING INDUSTRY.

According to Lee G. Lauck, economist, taxes are getting a stranglehold on our major industries. As an example, he cites that the total direct tax bill of the railroads in 1927 amounted to \$2.90 for every man, woman and child in the United States. Of every dollar paid for freight or passenger transportation 6.6 cents went for taxes.

To meet their taxes the lines had to pay out their entire gross earnings for a period of more than three weeks. Stated differently, after paying their wage, fuel and operating expense bill, taxes consumed the earnings of the railroads for about 80 days out of the year. They paid more in taxes than they received for transporting wheat, corn, passenger automobiles, auto trucks and parts.

Our other great industries are in a similar position. At present, Mr. Lauck says, 30 cents out of every dollar of net corporate profits goes to the tax collector. On the average, taxes have increased 965 per cent—

and railroad taxes 1243 per cent—in the past four decades, though our national wealth has increased only 154 per cent in that time and our population less than 100 per cent.

These taxes, of course, are passed directly on to the consumer, whether he buys groceries or railroad service. Every citizen must bear his share of the burden. It is no wonder that tax reduction is becoming one of the burning governmental issues of the day.—Selected.

FLETCHER'S STATE RIGHTS FARMING is an independent, individually owned Farm and Live Stock Journal devoted to the development of the Farming and Live Stock industry and the entertainment of the Rural Home. It is edited by Fletcher Davis, formerly editor of the Texas State Department of Agriculture's Monthly News Bulletin, under Commissioner George B. Terrell's administration, and founder and editor of the Market Journal and later of the Market Section of the News Bulletin, under former Commissioner Fred W. Davis's administration. Previous to this experience, he was for four years a Farmers Institute Lecturer and Organizer. Following Hon. Fred W. Davis's retirement from the State Department of Agriculture January 10, 1931, he joined FARMING's staff as Contributing Editor.

Every month FLETCHER'S FARMING is filled with interesting and timely matter, just such as you find in this issue.

If you are not a subscriber, this is a sample copy sent to you as an invitation to give it a trial. If you are a subscriber it is a request that you call the attention of your neighbors and friends to it and induce them to subscribe for it. In single subscriptions it is 50c, a year or it will be sent three years to one address for \$1.00.

If neither of these propositions appeal to you look over the club offers herewith and let us have your subscription.

If you prefer any of the below named magazines or newspapers, FARMING and either one of them will both be sent for the price marked thereafter as follows:

No. 2.

THE FARM PROBLEM

By Fred W. Davis, Contributing Editor

PRODUCTION A BUSINESS.

Production is now a business and until economists can eliminate costs and its relation to the selling price from business they cannot contend that farmers can eliminate these business factors and succeed. One very high national official said a few years ago that there is no such "animal" as a cost-price on farm products. To my mind, it is the most real thing in America. In every unit of farm produce offered to the public there is a cost in labor, money, denial of education, (or cost of ignorance) a cost in soil fertility that is permanent and I am afraid there is a cost in a lack of patriotic appreciation of the government because it legalizes a few gambling dens to make prices on what the farmers have produced.

A so-called great marketing expert said it would be wrong for farmers to determine prices based upon cost of production because it would disarrange business. This is making the farmer's success secondary to others. But would it be a disturbing business factor for farmers to keep production costs and charge accordingly? It doesn't disturb the manufacturing, mercantile or any other business to do so. The fact is, after readjustment it would help to stabilize business. It would remove an element of unusual uncertainty that exists under the present immoral, unfair and uneconomic system of pricing farm products.

PRESENT METHOD OF PRICING FARM PRODUCE WRONG.

No person living can defend the present method of pricing farm produce as being fair, moral or business-like. No man or set of men who own no products and do not even contemplate owning any, should be allowed to sell fictitious produce in competition to the real owners who have either produced them or bought them at legitimate sale. Production is the basis of the nation's prosperity, its created wealth, and no set of people should be permitted to keep its values in a state of continuous turmoil and uncertainty by fictitious dealings. Exchange dealings, as now carried on, is not business at all. Nothing is

(Continued from last issue.)

dealt in but chance, hence it is nothing but gambling. After the writer had paid his respects to the gamblers in life's necessities in a public speech, a young newspaper man informed him that stocks and bonds of corporations and companies of various kinds were dealt in on the board. When asked if every time a sale was made in railroad stocks, for example, it changed the freight rates and consequently the earning power of the roads, he seemed to see a difference. Railroad companies would not for one day permit their tariffs, (which is the price of their services), to be subject to the continuous juggling of the stock market. Neither would any major industry allow it. The government itself would not allow it. Then who can say it is right for the farmers to suffer such treatment? It is an uneconomic basis because it has no permanent creative investments, ignores costs and determines surpluses not by what is actually left at the close of the season, but by anticipation at the beginning of the season. It is a device that puts premiums upon the destruction of values. If it puts products too low it is unfair to the producers; if it puts them too high it is unfair to the consuming public. If gambling in farm products affected the gamblers only the farmers could object only upon moral grounds. But the tragedy of it is that the farmers have to stand the economic consequences, though not a part of the game.

Most writers and speakers condemn the speculators. It is considered safe ground because they deal with the subject in an abstract sense only and do not really mean anything by it. If they did mean anything they would earnestly endeavor to stop the practice of changing values of farm produce every three minutes of the day. The only right way to minimize the effects of undue speculation upon the price of farm products, whether such undue speculation be against the producer or consumer, is to stabilize the price while in the producers' hands. And the only fair basis for stabilization is upon the necessary costs entering into the production of the produce. Then the law should prohibit every dealer

(or so called dealer) selling products which he does not own.

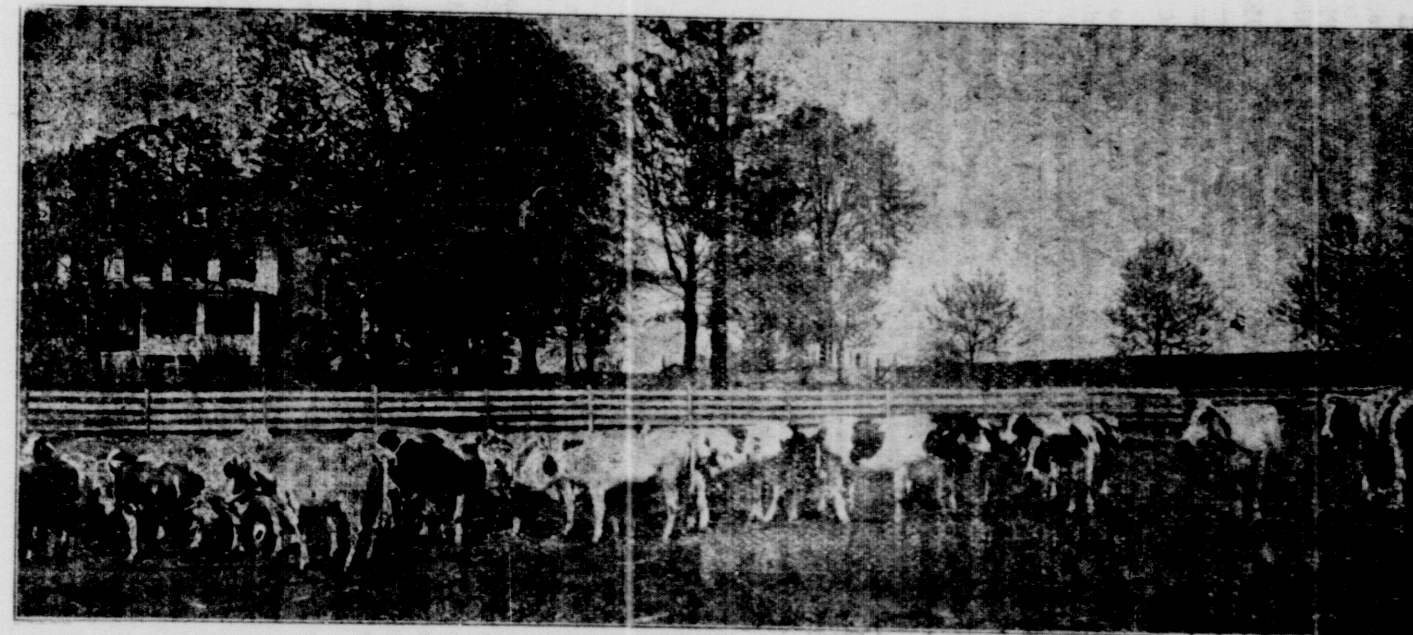

GAMBLING IN FARM PRODUCE INJURIOUS TO PRODUCERS' INTERESTS.

Gambling in farm products is against all legitimate dealings in these products. It is inimical to both producers and spinners, although spinners can better protect themselves. At the World's Cotton Conference, held a few years ago at New Orleans, a leading spinner of America told that gathering that for something like a third of a century he had been spinning both wool and cotton of about equal amounts. That he had the privilege of the board in his cotton deals but not in his wool deals, yet, his wool business had been more satisfactory than his cotton business. Space will not permit a discussion of the board method of pricing farm products. As the final decision in every economic controversy is determined by results, let those who believe that present methods of fictitious speculations help the farmers, consider the following. The condition of those who grow board products constitute a permanent national farm problem. The producers of board-priced products are the only class handling these products whose poor condition challenges public attention. No business concerns price their output by board methods. And, as to farm products themselves, compare the price of cotton, a commodity that is universal in its use and restricted in growth, to wool, a commodity that is restricted in its use and universal in its growth. Compare the price of wheat, a board-priced product, with rice, despite the fact that rice is a major oriental product.

FARMERS AND NOT SPECULATORS SHOULD CARRY PRODUCE.

It is argued that it would cost too much money to carry products in the farmers' hands until they could be sold for a profit. But it would not cost as much for the farmers to carry them as for the buyers to carry them. They must be carried by someone. The truth is the annual purchase would be as great at a profit price

CASTROVILLE, TEXAS, TUESDAY, SEPTEMBER 1, 1931

STEIN-TSCHIRHART.

A picturesque wedding took place Tuesday morning at 9 o'clock in the St. Louis Church, September 1st, of Miss Martha Tschirhart, the only daughter of Mr. and Mrs. Albert Tschirhart, and Mr. Louis Stein, the son of Mr. and Mrs. Jacob Stein of Cliff, Texas. The Rev. Father Koeberg performed the ceremony. The bridal procession started from the home of Mr. and Mrs. Henry Schott and proceeded across the square to the church.

The bride walked up the aisle on the arm of her brother, Oscar Tschirhart, the groom with his sister, Miss Thelma Stein, then Miss Florence Schott and Mr. Richard Stein. The bride was dressed in white satin and lace, and wore a wreath and veil. The bridesmaids were dressed in flat crepe dresses; Miss Thelma Stein in pink, Miss Florence Schott in lavender. The groom was dressed in conventional black.

After the ceremony the bridal party and guests were served a sumptuous breakfast at the home of Mr. and Mrs. Henry Schott. From there the party went to the home of the bride's parents where a dinner and supper were served and where dancing and the celebrating lasted into the night.

After a short honeymoon the bride and groom will make their home in

8,000,000th CAR.

An antidote for talk of depression and seasonal stagnation in the automobile industry was uncovered here when the Chevrolet Motor Company turned out its 8,000,000th car in its less than twenty years of existence.

The "milestone" car came off the line of the local assembly plant shortly before noon of Aug. 25th, and brings the number of six cylinder cars built by this manufacturer, since the introduction of the larger type in 1929, to nearly three millions. Five million cars and trucks have been built in less than five full years.

No ceremonies attended the building of the car—a sport roadster—other than the momentary pause of workmen who watched it gradually take a finished form as it passed down the assembly line. C. E. Wetherald, newly-appointed general manufacturing manager, had the car forged to first place in passenger car brought to Detroit for exhibition to registrations, and took the lead

NOTICE TO SUBSCRIBERS.

For the convenience of Anvil Herald subscribers at Castroville, La Coste, Rio Medina, Medina Lake and Motor Route G, we have placed a list with Mr. Bernard FitzSimon at the Highway Drug Store. You may pay your subscription and advertising accounts to Mr. FitzSimon and he will receipt for same. Also leave your advertising copy with him and it will be given prompt attention.

The Publishers.

the Winkler place near Cliff, Texas. Everyone wishes them a long and happy married life.

Born to Mr. and Mrs. Bert Pone, a baby girl, at the Santa Rosa Infirmary, Thursday, August 27, 1931.

Mr. Chas. Suehs was a business visitor in San Antonio Tuesday.

Dr. W. G. Bryner and daughter, Josephine, attended a meeting at the Nix Hospital in San Antonio Tuesday.

Mr. Leonard Breiden and Miss Clara Day of San Antonio visited in Castroville Sunday.

Miss Josephine Vogel of D'Hanis visited friends here the past week.

Miss Irene Burell returned after visiting a few weeks in New Braunfels.

Mr. and Mrs. Leo Rihn of San Antonio attended the Stein-Tschirhart wedding.

Mr. and Mrs. G. R. Hans and Mr. and Mrs. B. FitzSimon were in San Antonio Monday night.

other company officials. Among those on hand to inspect it were W. S. Knudsen, President and General Manager; H. J. Klingler, Vice-President and General Sales Manager; J. M. Crawford, Chief Engineer, and others.

No exhibition tours or other special arrangements have been made for the car, which is now on its way, along with several thousand others built the same day, for delivery to an unsuspecting owner somewhere in the region served by the Flint plant.

The car followed the seventh millionth Chevrolet in a year and three months, and is the 2,845,938th six cylinder unit turned out by Chevrolet since the changeover from a four in 1929.

The seventh millionth car was built May 28, 1930. In the period between this and the eight millionth car, the products of the company factoring manager, had the car forged to first place in passenger car brought to Detroit for exhibition to registrations, and took the lead

among all makes in production during recent months. Although organized in 1911, the company spent twelve years building the first million cars, that event having occurred in 1923. Thereafter the second and third millionth product followed at two year intervals, and the fourth millionth came off the line on Jan. 11, 1928, less than a year after the third. Again in 1928, on Sept. 8, another million was rounded out, and on June 25th, 1929, number 6,000,000 came off the line at Flint.

WEATHER REPORT.

Hondo, Texas, August 1931.—Total rainfall 1.66. Since January 1st, 23.76 inches. Temperature, highest 102 on 10th, lowest 63 on 17th. 8 rainy days, 23 clear, 7 part cloudy, cloudy none.

H. E. HAASS, Observer U. S. Weather Bureau.

HARVESTING AND STORING SEED CORN IN THE SOUTH.

By P. G. Holden, Field Director, Agricultural Extension Department, International Harvester Company.

Many farmers are careful to harvest and store their seed corn at the proper time and in the proper manner, but the majority of us depend for seed upon the occasional good ears found during the husking season or we select our seed corn from the crib in the spring.

This results in poor seed corn and poor seed corn means a poor stand, missing hills, weak stalks, producing little or nothing. It means less than 30 bushels per acre instead of 60. It means that we produce an average of one small ear to each hill instead of two or three. It means wasted land and wasted labor.

If harvesting seed corn was a portion of our every day work, like feeding our live stock, it would be done on time. But as it comes only once a year it is human for us to put it off or neglect it altogether.

On every farm where corn is grown, both in the north and in the south, a certain date, depending upon the locality, should be set aside as seed corn day, and on that day the seed corn for the next year's planting should be harvested and stored.

In many cases the work could not be completed in one day, but a good beginning could be made, and it will require less time than is generally supposed. Six bushels of seed will plant about 43 acres of corn, if there is no waste and no replanting necessary. But it is best to save 15 or 20 bushels of corn for each 40 acres. This will provide for all ordinary emergencies and will enable us to plant only the best and strongest ears.

One of the best methods for gathering seed corn is to go into the best field with bags or baskets and select well matured ears from the most vigorous stalks.

We should not fail to consider the stalk in selecting the seed, for it requires large, thrifty stalks to produce good, big ears. It is not a good plan to take the ear from a stalk that grew in a hill by itself, or from one in a hill with a barren or weak stalk. Many of the kernels on such an ear are likely to be pollenized by the barren or weak stalk.

Choose ears of medium height. If we select the highest ears, our corn will gradually become late. If we select the lowest ears we will soon have corn that is too early and with shallow kernels and wide furrows between the rows.

Pick ears that drop over so the their tips are turned downward. Such ears shed water better when it rains and are usually drier than ears standing upright. The shank should be short, as ears with long shanks are harder to husk and are more often damaged.

See that the husks are long enough to cover the tip of the ear, but do not extend far beyond. If the tip is left bare, it is likely to be damaged by insects or disease, and if the husks extend far beyond the point of the ear they are usually tightly closed so that the ear cannot dry out well and is difficult to husk.

There should be a medium growth of broad thrifty leaves distributed evenly over the stalk, and the plant should be free from all form of disease, such as smut, rust, etc., and should also be free from suckers.

Storing Seed Corn As soon as the corn is picked, it should be husked and placed so that the air can circulate freely around every ear. Never put it in a pile on the floor.

When picked, corn contains a lot of moisture and if placed in a pile, especially in the south, will heat or mold, or both in a very short time.

It should be so arranged that the ears do not touch each other.

A rack can be made or purchased which will provide for the proper conditions for storing seed corn, and one of the most satisfactory methods is to tie it up with binder twine.

The strings containing 12 or 15 ears each, can be suspended from horizontal wires or from nails driven in rafters. By this method enough corn to plant eight acres can be stored in a space three feet long and 10 inches wide.

This method of storing gives better protection from the mice than when the corn is spread on the floor, or corded in piles, and it gives better circulation of air, which allows the corn to dry out quickly and thoroughly, thus protecting it from moulding or sprouting.

One source of injury to seed corn is freezing while it contains moisture, but this danger is not so great in the south as in the north.

In the northern states it is only

necessary to store seed corn in the manner mentioned, in some place where the atmosphere is dry, where there is free circulation of air and where the corn will not be exposed to overheating or freezing.

These general conditions apply equally to the storing of seed corn in the south, but there is also another danger against which safeguards must be provided. This is the damage occasioned by the weevils and grain moth. This often makes it necessary to fumigate the seed with bisulphid of carbon, using one-half pint of the insecticide to 10 bushels of grain or less.

When the fumigation is made, the corn must be placed in a specially prepared box or other receptacle, made as air tight as is possible. The bisulphid should be placed in shallow dishes or pans on top of the seed and allowed to evaporate for from 24 to 48 hours. The corn should not be fumigated until dry, as it is likely to heat. After fumigating, the ears must be thoroughly aired. The bisulphid is very inflammable, even explosive, when mixed with air under certain conditions and must be handled with great caution. No fire, lighted lantern, lamp or other open flame should be present when the fumigating box is opened.

Anyone not familiar with bisulphid of carbon should first obtain from the Secretary of Agriculture, at Washington, D. C., copies of Farmers' bulletins Nos. 45 and 745 and read them carefully.

Another very effective method of protecting seed corn from the weevil and the moth, is to suspend it on strings from wires stretched across the top of a box-like frame, two or more sides of which are made of wire screen. The screen will permit free circulation of air and keep out both moths and mice. Or the frames may be entirely or partly covered with muslin instead of screen, if preferred.

CROP ROTATION NECESSARY.

By L. A. Hawkins, Agricultural Extension Department, International Harvester Company.

Rotation of crops lessens the risk of failure. It means diversification—growing more than one kind of crop on the farm. It increases the sources of income. It calls for more efficient farm help because it means steady employment. Farming is a business that requires all of our energies intelligently directed.

The problem of securing efficient farm help is often serious. In the great wheat growing region the harvest and threshing seasons demand an army of harvest hands. Wheat is ripe—the work must be done rapidly or the crop will be lost. Thousands of acres of wheat must be taken care of in a short time. The harvest is a scene of great activity. There is much activity while the crop is being removed from the land and threshed but there is little activity after the transient labor is performed and the harvest hands leave for other parts.

One crop farming never makes prosperity. It may be all right for a while—especially in pioneer regions—but there is sure to come a time when the system must be changed or ruin will result from lack of producing power of the soil. There is but one plan that is always permanently successful—the diversification of crops and raising of live stock. There may be a few limited areas that would prove exceptions because of local conditions.

Crop rotation is the alternate growing of three general classes of farm crops, grain crops, grass or legume crops, and cultivated crops. The rotation must be arranged to provide the largest yields of grain, pasture and forage needed on the farm at the least expense of labor and fertility.

Rotation systems must be adapted to each farm or class of farms. The useful things for a good rotation are that the yields of the acre be maintained or increased; that humus be kept in the soil; that the land be kept in good physical condition and reasonably free from weeds and insects. Legume crops (clovers, soybeans, cowpeas, etc.) must be grown and barnyard manure applied to keep up the supply of organic matter. Cultivated crops and good tillage are necessary to keep out weeds and help put the soil in good condition. These things are naturally brought about by rotation of crops.

In planning a system of rotation observe the following points: Rotate legume crops with grain crops and plan to grow crops that will give the largest net profit per acre.

Feed on the farm as large a portion as possible of the crops grown and return the manure to the fields. Raise the kind of live stock that will bring the largest return, bearing in mind that as a constant money maker a good dairy cow has no superior.

This is diversified farming and the man who follows it cannot fail under normal conditions. Under the worst conditions he will not fail so utterly as the one-crop farmer will fail, because if he has a few hogs, some chickens and a few dairy cows, he will have grown a large portion of the food needed by himself and family.

Rotations of crops is some protection against insects and plant diseases. Wherever these are found on a farm, profits are reduced and failure will result. The corn root worm, corn root louse, chinch bug, Hessian fly, rust and smut and many other plant diseases and insect enemies to crops are the result of growing the same crop year after year without rotation. These pests multiply to such an extent that it becomes impossible to secure profitable returns from the land.

Rotation of crops means live stock on the farm. It means dairying. It means an even distribution of farm work, a larger and more continuous income, better and happier homes and more efficient people.

D'Hanis Doings

A round-up of Local, Personal and Business Items gathered weekly by our regular Correspondent

Miss Viola Koch

to whom all items intended for this column should be handed not later than Wednesday noon of each week. Miss Koch is authorized to collect and receipt for money due this paper.

D'HANIS, TEXAS, WEDNESDAY, SEPTEMBER 2, 1931

Miss Lena Reinhart spent several days in Del Rio last week.

Mr. William Rudinger returned home from Pampa, Texas, after a two months' visit with his sister, Mrs. Fred Steineman.

Janard Ehlinger and Paul Schott of Devine are spending their vacation here with James Fillingim.

Misses Sylvia Tondre and Irene Poerner and Joe Mueller spent Thursday at the Medina Lake.

Mrs. Frances Keller and daughter, Nora, of Hondo and Miss Lorene Koch of LaCoste were visiting Mr. and Mrs. Ferdie Koch and family Sunday.

Messrs. Anthony Woiaska and Ernest Vogel of San Antonio spent Sunday here with Jacob Vogel and family.

Mrs. P. M. Koch, Sr., is visiting in Hondo this week.

Mr. and Mrs. Lawrence Ahr and daughter, Marjorie, of San Antonio spent Sunday here with relatives.

Mrs. Arnold Zerr of Houston is visiting her parents, Mr. and Mrs. Wm. Finger.

Mrs. Raymond Wolff and little daughter, Adeline, are spending the week visiting relatives in San Antonio.

Mr. and Mrs. A. G. Lamm and daughters and Mrs. Joe Oussett of San Antonio were visitors here Sunday.

Mrs. Aug. Nester was a Sabinal visitor Thursday afternoon.

Mr. and Mrs. Erwin Netherling and little son of San Antonio spent Sunday here with Mrs. Netherling's parents, Mr. and Mrs. Frank Huegele.

Mrs. Ed. Keller and children re-

turned Sunday after a week's visit in Castroville and San Antonio.

Born to Mr. and Mrs. Alphonse Boog, a 12 1-2 pound baby girl Tuesday, September 1, 1931.

Mr. and Mrs. Frank Kimmerly daughter, Mrs. Lena Langfeld and daughter, Carrie, and J. B. are spending several days at Con Can.

Mr. Chas. Klasing of San Antonio was a business visitor here on Tuesday.

BRIDGE CLUB.

At a lovely party on Wednesday afternoon Mrs. A. M. Rath delightfully entertained the members of her club and several additional guests. Beautiful zinnias were used in decorating the bridge room. Mrs. M. A. Finger was awarded high club prize and Mrs. W. E. Albrecht the high guest prize. The consolation prize was given to Mrs. John Zinsmeyer and Miss Tina Rothe held low score. Delicious ice cream, angel food cake and macaroons were served to the following members: Mesdames Herman Ney, E. A. Rothe, John Zinsmeyer, M. J. Finger, Ferd Rock, Hy. Biry, Ed. Finger and Joe Williams, and Misses Tina Rothe, Grace Zinsmeyer and Cornelia Koch, and the following guests: Mesdames Ben Koch, Hy. Muennink, W. E. Albrecht, Ernest Britsch and Chas. Finger.

A card party was held at the Parish Hall by the St. Anthony's Community Club on Saturday night for the benefit of the school. The hostesses for the evening were Mesdames Richard Carle, Ed. Koch, Alf. Zinsmeyer, Hy. Biry, Reilly Carle, Albert Nester and John Nester. Bridge, High Five and Rook were enjoyed throughout the evening, after which delicious refreshments of cake and iced tea were served.

FOR SALE.

My 1930 model Ford town sedan in good condition, cash or terms to responsible party. Better hurry as this is a bargain for some one.

Herman Weynand, Phone 134.

ONE DOSE GERMAN REMEDY ENDS GAS

"I was sick and nervous with indigestion and stomach gas. One dose of Adlerika helped. I eat anything now and sleep good."—Henry Dodd.

You can't get rid of indigestion or gas by just doctoring the stomach. For gas stays in the UPPER bowel. Adlerika reaches BOTH upper and lower bowel, washing out poisons which cause gas, nervousness and bad sleep. Get Adlerika today; by tomorrow you feel the wonderful effect of this German Doctor's remedy. W. H. Windrow, Druggist.

Munchy Marshmallow Recipes

LIVES there a man or woman with a soul so dead that he or she has not toasted a nice, fluffy, crackly marshmallow on the end of a long pointed stick before a bed of embers? But how many housewives know of that multiplicity of marshmallow recipes which include the succulent Hawaiian pineapple? Here are some which you'll want to clip out and save if you haven't them in your recipe book already:

Red and Yellow

Current Salad: Place slices of pineapple from one can on crisp lettuce. Fill centers with one heaping tablespoon currant jelly and top with a whole marshmallow. Cut thirty marshmallows in strips and arrange around the pineapple. Sprinkle with one-half cup walnut meats and chill thoroughly. Serve with whipped cream.

Frozen Salad: Put syrup from a can of sliced pineapple in the top of a double boiler with one-half cup water, yolks of two eggs, salt, one-half teaspoon mustard, two tablespoons sugar, juice of one lemon;

cook until thick like a custard. Let cool, and fold in one-half pint heavy cream, whipped. Add diced contents of one can of pineapple, one-half pound split and blanched almonds, and fifteen quartered marshmallows.

A Fruit Dessert

Dainty Lucille: Peel and break in sections one orange; dice four slices of pineapple, halve one-fourth pound white grapes and remove seeds. Shred one-fourth pound blanched almonds; slice one celery heart, and quarter thirty marshmallows and maraschino cherries from a small bottle. Drain the fruit well. Mix lightly, then arrange on the inside leaves of fresh head lettuce and top each serving with the following dressing:

Heat one cup syrup drained from the can of pineapple. Mix three tablespoons sugar, three tablespoons flour, one-fourth teaspoon salt, one-half teaspoon mustard and one-eighth teaspoon paprika. Add the hot syrup, stirring constantly, and bring to the boiling point. Add one-fourth cup vinegar and allow to boil slowly three minutes. Chill and serve on salad.*

THE FARM PROBLEM

By Fred W. Davis, Contributing Editor

PRODUCTION A BUSINESS.

Production is now a business and until economists can eliminate costs and its relation to the selling price from business they cannot contend that farmers can eliminate these business factors and succeed. One very high national official said a few years ago that there is no such "animal" as a cost-price on farm products. To my mind, it is the most real thing in America. In every unit of farm produce offered to the public there is a cost in labor, money, denial of education, (or cost of ignorance) a cost in soil fertility that is permanent and I am afraid there is a cost in a lack of patriotic appreciation of the government because it legalizes a few gambling dens to make prices on what the farmers have produced.

A so-called great marketing expert said it would be wrong for farmers to determine prices based upon cost of production because it would disarrange business. This is making the farmer's success secondary to others. But would it be a disturbing business factor for farmers to keep production costs and charge accordingly? It doesn't disturb the manufacturing, mercantile or any other business to do so. The fact is, after readjustment it would help to stabilize business. It would remove an element of unusual uncertainty that exists under the present immoral, unfair and uneconomic system of pricing farm products.

PRESENT METHOD OF PRICING FARM PRODUCE WRONG.

No person living can defend the present method of pricing farm produce as being fair, moral or business-like. No man or set of men who own no products and do not even contemplate owning any, should be allowed to sell fictitious produce in competition to the real owners who have either produced them or bought them at legitimate sale. Production is the basis of the nation's prosperity, its created wealth, and no set of people should be permitted to keep its values in a state of continuous turmoil and uncertainty by fictitious dealings. Exchange dealings, as now carried on, is not business at all. Nothing is

(Continued from last issue.)

dealt in but chance, hence it is nothing but gambling. After the writer had paid his respects to the gamblers in life's necessities in a public speech, a young newspaper man informed him that stocks and bonds of corporations and companies of various kinds were dealt in on the board. When asked if every time a sale was made in railroad stocks, for example, it changed the freight rates and consequently the earning power of the roads, he seemed to see a difference. Railroad companies would not for one day permit their tariffs, (which is the price of their services), to be subject to the continuous juggling of the stock market. Neither would any major industry allow it. The government itself would not allow it. Then who can say it is right for the farmers to suffer such treatment? It is an uneconomic basis because it has no permanent creative investments, ignores costs and determines surpluses not by what is actually left at the close of the season, but by anticipation at the beginning of the season. It is a device that puts premiums upon the destruction of values. If it puts products too low it is unfair to the producers; if it puts them too high it is unfair to the consuming public. If gambling in farm products affected the gamblers only the farmers could object only upon moral grounds. But the tragedy of it is that the farmers have to stand the economic consequences, though not a part of the game.

Most writers and speakers condemn the speculators. It is considered safe ground because they deal with the subject in an abstract sense only and do not really mean anything by it. If they did mean anything they would earnestly endeavor to stop the practice of changing values of farm produce every three minutes of the day. The only right way to minimize the effects of undue speculation upon the price of farm products, whether such undue speculation be against the producer or consumer, is to stabilize the price while in the producers' hands. And the only fair basis for stabilization is upon the necessary costs entering into the production of the produce. Then the law should prohibit every dealer

(or so called dealer) selling products which he does not own.

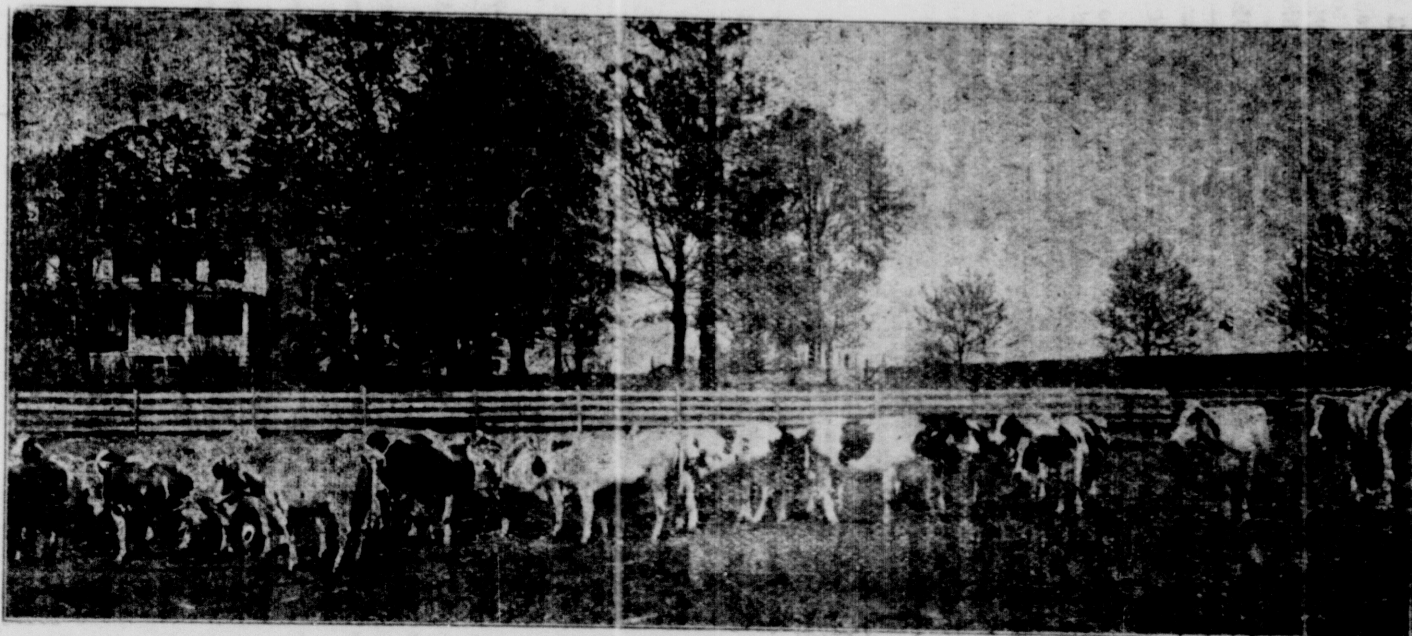

GAMBLING IN FARM PRODUCE INJURIOUS TO PRODUCERS' INTERESTS.

Gambling in farm products is against all legitimate dealings in these products. It is inimical to both producers and spinners, although spinners can better protect themselves. At the World's Cotton Conference, held a few years ago at New Orleans, a leading spinner of America told that gathering that for something like a third of a century he had been spinning both wool and cotton of about equal amounts. That he had the privilege of the board in his cotton deals but not in his wool deals, yet, his wool business had been more satisfactory than his cotton business. Space will not permit a discussion of the board method of pricing farm products. As the final decision in every economic controversy is determined by results, let those who believe that present methods of fictitious speculations help the farmers, consider the following. The condition of those who grow board products constitute a permanent national farm problem. The producers of board-priced products are the only class handling these products whose poor condition challenges public attention. No business concerns price their output by board methods. And, as to farm products themselves, compare the price of cotton, a commodity that is universal in its use and restricted in growth, to wool, a commodity that is restricted in its use and universal in its growth. Compare the price of wheat, a board-priced product, with rice, despite the fact that rice is a major oriental product.

FARMERS AND NOT SPECULATORS SHOULD CARRY PRODUCE.

It is argued that it would cost too much money to carry products in the farmers' hands until they could be sold for a profit. But it would not cost as much for the farmers to carry them as for the buyers to carry them. They must be carried by someone. The truth is the annual purchase would be as great at a profit price
